

## Rubislaw Park Care Home: Social Transport Case Study

### Background

Most of the residents have not left the home since they first arrived.

### Assessment

The activities coordinator at Rubislaw Park applied to the Social transport project to get transport for outings to garden centres, art galleries, coffee shops etc. This was in the hope to provide variety for residents and basic interaction with life outside the home.

### Conclusion

Transport is provided by Buchan Dial-a-Bus. Residents visit a different place each week chosen by the activities coordinator.

### Feedback

Comments from the activities coordinator

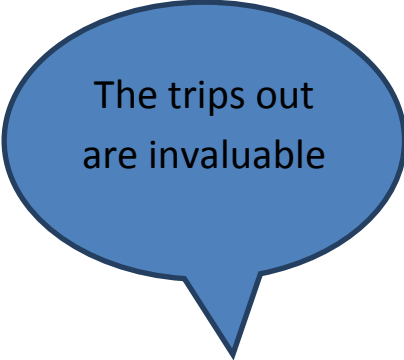

The residents  
have been  
having a  
wonderful time

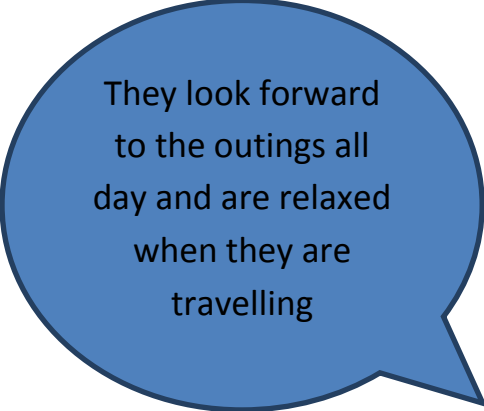

The driver  
treats them as  
equals

They feel  
safe

The trips out  
are invaluable

They look forward  
to the outings all  
day and are relaxed  
when they are  
travelling
